Inc. (Simply)
Introduces
Electronic Visit
Verification

Tomorrow's Care Starts Today

Mobile technology has changed the way we live, work and play. We touch, swipe and pinch our way through everything from getting mail to managing schedules to organizing daily activities.

We are a digital, mobile world. So, when it comes to personal and home health care, it just makes sense to use mobile technology to verify, simplify and improve service delivery.

INTRODUCING ELECTRONIC VISIT VERIFICATION

Starting in June 2019, depending on region, Simply will require Electronic Visit Verification (EVV) for Statewide Medicaid Managed Care Managed Medical Assistance (SMMC MMA).

EVV is a technology solution that electronically verifies the utilization and delivery of care services. Caregivers use their mobile device to see daily or weekly schedules and verify care delivery — right at the point of care. It's that simple. Plus, as a provider you'll always know — in real time — what's happening with your visits.

As part of the transition to EVV, Simply has selected **Tellus, LLC**, as our technology solution for claims processing. Tellus is a leading provider of end-to-end EVV technology.

With Tellus eVV, you'll enjoy:

- **Peace of mind** because you always know your clients are getting the care they need.
- **Real-time visibility into visits** so you can be proactive instead of reactive when it comes to late or missed visits.
- **Robust reporting and analytics** that allow you to make the most informed and sound business decisions.
- **Accurate claims** so you can submit them faster with fewer errors, meaning less rejections.

TELLUS^eVV

SIMPLE SOLUTIONS

Tellus eVV is a cloud-based scheduling, visit verification and claims system that simplifies service with easy-to-use tools, significant process improvements and reduced paperwork.

It addresses the unique needs of providers and caregivers while also supporting self-direction and independence.

With Tellus eVV, caregivers use any smart mobile device to:

- **Check in to see daily or weekly schedules and confirm location.**
- **Check off care tasks as they're delivered.**
- **Check out when the visit is complete.**

Patient information, care plans and schedules are easily updated, and data is always secure and compliant, so caregivers concentrate on providing quality care to your customers.

Plus, Tellus eVV is so intuitive, it's easily mastered with minimal training or technical skills.

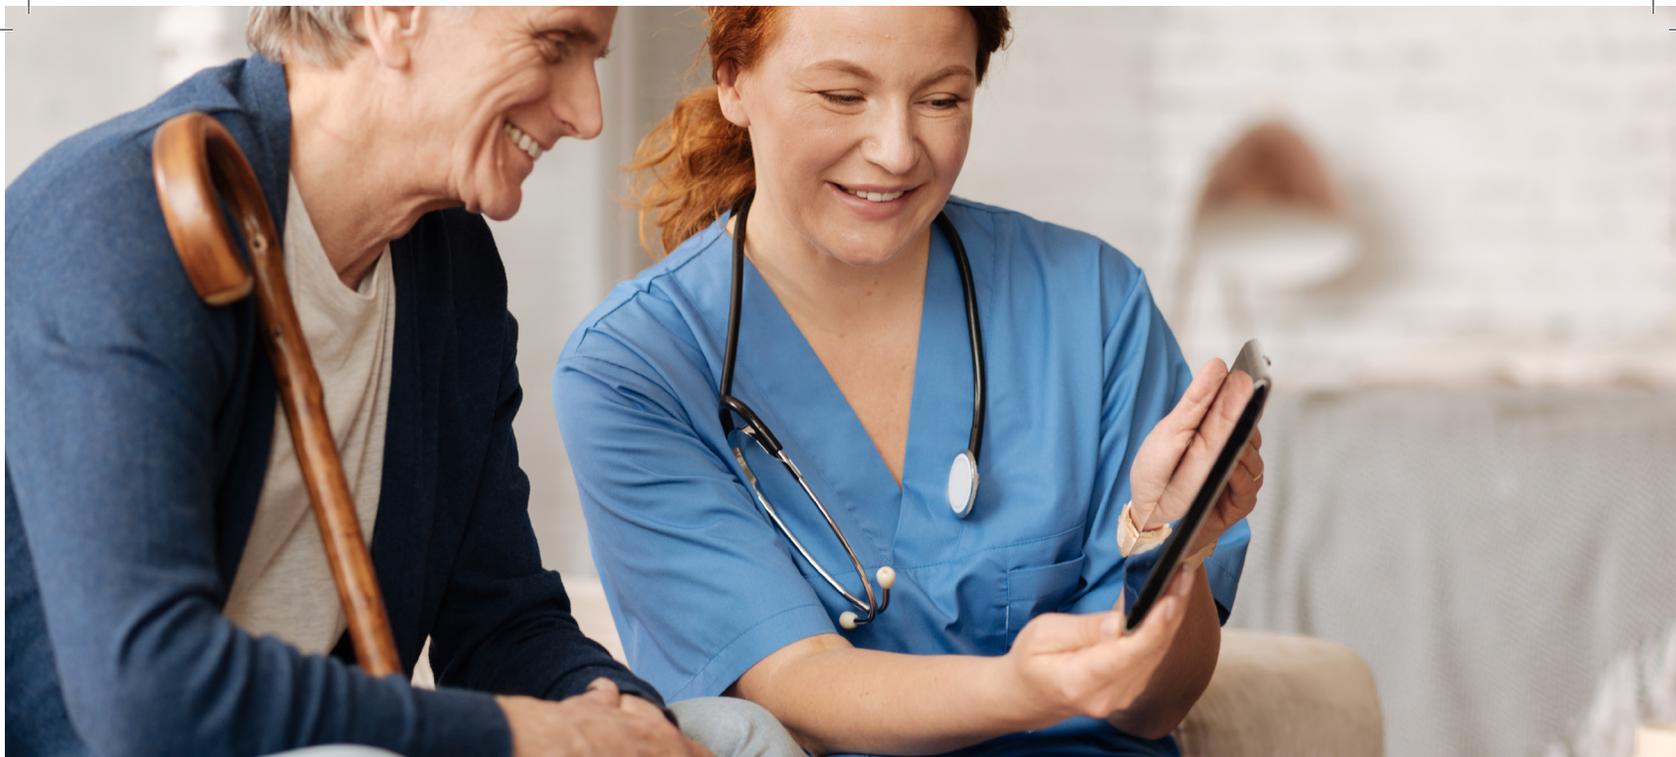

Already have EVV?

Don't worry. You can continue to use that service. Your vendor just needs to integrate with the Tellus system so the EVV data collected is electronically transferred for claims processing. **Claims submitted to Simply must be submitted using the Tellus eVV Claims Console** on, and after, the designated date for your region.

In an effort to provide you with a cost-effective solution, Simply is covering the cost of the service for Simply providers who opt to use the complete Tellus eVV solution. The solution includes the Tellus eVV Mobile App, Administrator Console and a Claims Console. If you prefer to use your existing EVV mobile app, it must comply with the 21st Century Cures Act as well as Simply's policies and procedures and meet the minimum requirements for electronic data interchange (EDI) with the Tellus system.

We encourage you to talk to your vendor as soon as possible and have them get in touch with Tellus at sales@4tellus.com to begin the integration process.

GET STARTED TODAY

You want to focus on care delivery, not technology. Tellus eVV's user-friendly platform is fast, efficient and accurate, but especially important to caregivers, it's easy to use with any mobile device.

Tellus provides instructor-led webinars, online user guides and video tutorials so you can quickly get started and stay on top of visit data and claims processing.

Using touchscreen technology on the mobile app, caregivers will learn how to manage daily schedules and care plans in the field, track tasks, confirm location and verify visits.

Training is an important first step to successfully implementing your EVV system. Mark the dates on your calendar, and watch your mail for more details.

Disclaimer: Simply Healthcare Plans, Inc. is a Managed Care Plan with a Florida Medicaid contract. Simply Healthcare Plans, Inc. is a Medicare contracted coordinated care plan that has a Medicaid contract with the State of Florida Agency for Health Care Administration to provide benefits or arrange for benefits to be provided to enrollees. Enrollment in Simply Healthcare Plans, Inc. depends on contract renewal.
